*Citizenship Law in Africa: 3rd Edition* May 11 2021 Few African countries provide for an explicit right to a nationality. Laws and practices governing citizenship effectively leave hundreds of thousands of people in Africa without a country. These stateless Africans can neither vote nor stand for office; they cannot enrol their children in school, travel freely, or own property; they cannot work for the government; they are exposed to human rights abuses. Statelessness exacerbates and underlies tensions in many regions of the continent. *Citizenship Law in Africa*, a comparative study by two programs of the Open Society Foundations, describes the often arbitrary, discriminatory, and contradictory citizenship laws that exist from state to state and recommends ways that African countries can bring their citizenship laws in line with international rights norms. The report covers topics such as citizenship by descent, citizenship by naturalisation, gender discrimination in citizenship law, dual citizenship, and the right to identity documents and passports. It is essential reading for policymakers, attorneys, and activists. This third edition is a comprehensive revision of the original text, which is also updated to reflect developments at national and continental levels. The original tables presenting comparative analysis of all the continents nationality laws have been improved, and new tables added on additional aspects of the law. Since the second edition was published in 2010, South Sudan has become independent and adopted its own nationality law, while there have been revisions to the laws in Cote d'Ivoire, Kenya, Libya, Mali, Mauritania, Namibia, Niger, Senegal, Seychelles, South Africa, Sudan, Tunisia and Zimbabwe. The African Commission on Human and Peoples Rights and the African Committee of Experts on the Rights and Welfare of the Child have developed important new normative guidance.

*Americans in Waiting* Sep 15 2021 Although America is unquestionably a nation of immigrants, its immigration policies

have inspired more questions than consensus on who should be admitted and what the path to citizenship should be. In *Americans in Waiting*, Hiroshi Motomura looks to a forgotten part of our past to show how, for over 150 years, immigration was assumed to be a transition to citizenship, with immigrants essentially being treated as future citizens--Americans in waiting. Challenging current conceptions, the author deftly uncovers how this view, once so central to law and policy, has all but vanished. Motomura explains how America could create a more unified society by recovering this lost history and by giving immigrants more, but at the same time asking more of them. A timely, panoramic chronicle of immigration and citizenship in the United States, *Americans in Waiting* offers new ideas and a fresh perspective on current debates.

***Britishness, Belonging and Citizenship* Jul 13 2021** Available Open Access under CC-BY-NC licence. Long term resident migrants to the UK, who often possess valuable skills for the economy, still face significant barriers to citizenship. In this important book, Dr Prabhat captures the experiences of those who successfully become British citizens through stories of belonging, citizenship and the law; beautifully illustrated by artist Sam Church. Speaking to contemporary times of Brexit, the book exposes the challenges which become insurmountable for many migrants, and illuminates the gap between policy and practice in gaining British citizenship.

Special features visually reinforce the text and ask readers to answer a thought-provoking question.

**Defining British Citizenship Mar 09 2021** Unlike many nations Britain had not developed a national citizenship by the 20th century. Instead belonging in Britain was merely a function of allegiance to the Crown. This lack of definition was seen as beneficial. This title explores the implications of such vagueness as a new millennium begins.

**Citizenship Law in Africa Oct 28 2022** Few African countries provide for an explicit right to a nationality. Laws and practices governing citizenship leave hundreds of thousands of people in Africa without a country to which they belong. Statelessness and discriminatory citizenship practices underlie and exacerbate tensions in many regions of the continent, according to this report by the Open Society Institute. *Citizenship Law in Africa* is a comparative study by the Open Society Justice Initiative and Africa Governance Monitoring and Advocacy Project. It describes the often arbitrary, discriminatory, and contradictory citizenship laws that exist from state to state, and recommends ways that African countries can bring

their citizenship laws in line with international legal norms. The report covers topics such as citizenship by descent, citizenship by naturalization, gender discrimination in citizenship law, dual citizenship, and the right to identity documents and passports. It describes how stateless Africans are systematically exposed to human rights abuses: they can neither vote nor stand for public office; they cannot enroll their children in school, travel freely, or own property; they cannot work for the government.--Publisher description.

**Citizenship Laws of the World Nov 17 2021** This directory provides synopses of the citizenship laws for most of the world's countries. We obtained information for this directory from embassies, the Library of Congress, and the Department of State. The directory also provides the address, telephone number, and fax number of most countries' diplomatic representatives. We have made this document as accurate and up-to-date as our resources have allowed. The information contained in this directory should not be considered formal legal advice. It is intended to serve as a quick reference document, summarizing the citizenship laws of foreign nations and providing contact information. You should direct detailed or specific questions to a nation's specific diplomatic representatives. Readers should understand that citizenship laws are often amended to keep in step with political changes. A considerable time lapse between the enactment of new laws and their actual implementation is not uncommon. Moreover, it is not unusual to encounter differences between a nation's laws and its actual practices.

**Citizenship and Immigration Apr 22 2022** "This is a superb piece of scholarship. Joppke manages to cover an extraordinary range of theoretical questions and empirical findings within a very compact and readable book. He coherently synthesizes and cogently brings together an array of different literatures that have often remained separate from one another. In doing so, he provides a 'state of the art' overview and analysis of the topics of citizenship and immigration." Marc Morjé Howard, Georgetown University "Citizenship and Immigration is an outstanding analysis of one of the most dramatic developments in the contemporary world, especially in Europe - namely the impact of immigration on the reconstitution of citizenship and of discussions thereof. It is essential reading for anybody interested in the contemporary scene." S. N. Eisenstadt, Van Leer Jerusalem Institute "Few scholars know the citizenship and immigration literature like Christian Joppke. In this tour de force, Joppke moves nimbly from social theory to current policy developments in Europe, North America and Australia. He paints a nuanced picture of the liberal evolution of citizenship, remaining attentive to governments' recent exclusionary moves. A must-read!" Irene Bloemraad, University of California, Berkeley This incisive book provides a succinct overview of the new academic field of citizenship and immigration, as well as presenting a fresh and original argument about changing citizenship in our contemporary human rights era. Instead of being nationally resilient or in postnational decline, citizenship in Western states has continued to evolve, converging on a liberal model of inclusive citizenship with diminished rights implications and increasingly universalistic identities. This convergence is demonstrated through a sustained comparison of developments in North America, Western Europe, and Australia. Topics covered in the book include: recent trends in nationality laws; what ethnic diversity does to social citizenship; the decline of multiculturalism yet continuing rise of antidiscrimination policies; and the new state campaigns to upgrade and re-nationalize citizenship in the post-2001 period. Sophisticated and informative, and written in a lively and accessible style, this book will appeal to upper-level students and scholars in sociology, political science, and immigration and citizenship studies.

**Citizenship and Constitutional Law May 23 2022** The papers collected in this volume highlight the complex dynamic relationship between citizenship - as membership status - and the constitutional law which provides the cornerstone of all polities. It shows the many different ways in which we must use constitutional law in order fully to understand how one becomes a citizen, and what the meaning of citizenship is. Edited by a leading authority in the field, this volume contains the key works which cover national, transnational and international aspects of the topic, and the book provides a particular focus on how constitutional law constructs and upholds the range of citizenship rights. With an original introduction by the editor, this timely collection will be a valuable source of reference for students, academics and practitioners interested in citizenship and constitutional law.

**Migration, Asylum and Citizenship Law in Ireland Aug 22 2019** The book is targeted at academics and students working in the field of migration and asylum law. It will also be of interest to practitioners and to policy makers in Europe, as the first extended scholarly analysis of this field of Irish law. Many of the significant legislative, constitutional and jurisprudential changes that have occurred, have resulted from contested claims arising under EU, ECHR and comparative constitutional law. The book will interest scholars across these fields, and will become a key reference work for the legal profession and researchers in the rapidly expanding area of migration and asylum law. The book is likely to attract significant interest in North America, where debates on citizenship law in Ireland in particular have been followed closely, given the transnational judicial dialogue in Irish courts, referencing US case-law, and the close links between academics and the superior courts in both jurisdictions. Current scholarly work on citizenship law in Ireland has been widely cited in key texts by leading immigration law scholars in the US and Canada, for example.

**A Nationality of Her Own Aug 14 2021** In 1907, the federal government declared that any American woman marrying a foreigner had to assume the nationality of her husband, and thereby denationalized thousands of American women. This highly original study follows the dramatic variations in women's nationality rights, citizenship law, and immigration policy in the United States during the late Progressive and interwar years, placing the history and impact of "derivative citizenship" within the broad context of the women's suffrage movement. Making impressive use of primary sources, and utilizing original documents from many leading women's reform organizations, government agencies, Congressional hearings, and federal litigation involving women's naturalization and expatriation, Candice Bredbenner provides a

refreshing contemporary feminist perspective on key historical, political, and legal debates relating to citizenship, nationality, political empowerment, and their implications for women's legal status in the United States. This fascinating and well-constructed account contributes profoundly to an important but little-understood aspect of the women's rights movement in twentieth-century America. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. **Does an Inclusive Citizenship Law Promote Economic Development?** Apr 10 2021 This paper analyzes the impact of citizenship laws on economic development. We first document the evolution of citizenship laws around the world, highlighting the main features of jus soli, jus sanguinis as well as mixed regimes, and shedding light on the channels through which they could have differentiated impact on economic development. We then compile a data set of citizenship laws around the world. Using cross-country regressions, panel-data techniques, as well as the synthetic control method and subjecting the results to a battery of tests, we find robust evidence that jus soli laws—being more inclusive—lead to higher income levels than alternative citizenship rules in developing countries, though to a less extent in countries with stronger institutional environment.

**Citizenship in Africa** May 31 2020 *Citizenship in Africa* provides a comprehensive exploration of nationality laws in Africa, placing them in their theoretical and historical context. It offers the first serious attempt to analyse the impact of nationality law on politics and society in different African states from a trans-continental comparative perspective. Taking a four-part approach, Parts I and II set the book within the framework of existing scholarship on citizenship, from both sociological and legal perspectives, and examine the history of nationality laws in Africa from the colonial period to the present day. Part III considers case studies which illustrate the application and misapplication of the law in practice, and the relationship of legal and political developments in each country. Finally, Part IV explores the impact of the law on politics, and its relevance for questions of identity and 'belonging' today, concluding with a set of issues for further research. Ambitious in scope and compelling in analysis, this is an important new work on citizenship in Africa.

**Pursuing Citizenship in the Enforcement Era** Sep 22 2019 *Pursuing Citizenship in the Enforcement Era* provides readers with the everyday perspectives of immigrants on what it is like to try to integrate into American society during a time when immigration policy is focused on enforcement and exclusion. The law says that everyone who is not a citizen is an alien. But the social reality is more complicated. Ming Hsu Chen argues that the citizen/alien binary should instead be reframed as a spectrum of citizenship, a concept that emphasizes continuities between the otherwise distinct experiences of membership and belonging for immigrants seeking to become citizens. To understand citizenship from the perspective of noncitizens, this book utilizes interviews with more than one-hundred immigrants of varying legal statuses about their attempts to integrate economically, socially, politically, and legally during a modern era of intense immigration enforcement. Studying the experiences of green card holders, refugees, military service members, temporary workers, international students, and undocumented immigrants uncovers the common plight that underlies their distinctions: limited legal status breeds a sense of citizenship insecurity for all immigrants that inhibits their full integration into society. Bringing together theories of citizenship with empirical data on integration and analysis of contemporary policy, Chen builds a case that formal citizenship status matters more than ever during times of enforcement and argues for constructing pathways to citizenship that enhance both formal and substantive equality of immigrants.
