[The American Yawp](#) Nov 08 2020 "I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass* *The American Yawp* is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

[Independence Hall in American Memory](#) Nov 20 2021 "This is a book I have long awaited, one that tells the life of a single building so as to illuminate American history from almost every angle—cultural, social, and political."—Mary Ryan, author of *Civic Wars: Democracy and Public Life in the American City During the Nineteenth Century*

Beneath the Backbone of the World Sep 06 2020 For the better part of two centuries, between 1720 and 1877, the Blackfoot (Niitsitapi) people controlled a vast region of what is now the U.S. and Canadian Great Plains. As one of the most expansive and powerful Indigenous groups on the continent, they dominated the northern imperial borderlands of North America. The Blackfoot maintained their control even as their homeland became the site of intense competition between white fur traders, frequent warfare between Indigenous nations, and profound ecological transformation. In an era of violent and wrenching change, Blackfoot people relied on their mastery of their homelands' unique geography to maintain their way of life. With extensive archival research from both the United States and Canada, Ryan Hall shows for the first time how the Blackfoot used their borderlands position to create one of North America's most vibrant and lasting Indigenous homelands. This book sheds light on a phase of Native and settler relations that is often elided in conventional interpretations of Western history, and demonstrates how the Blackfoot exercised significant power, resiliency, and persistence in the face of colonial change.

[The Soul of America](#) Nov 28 2019 #1 NEW YORK TIMES BESTSELLER • Pulitzer Prize-winning author Jon Meacham helps us understand the present moment in American politics and life by looking back at critical times in our history when hope overcame division and fear. ONE OF OPRAH'S "BOOKS THAT HELP ME THROUGH" • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The Christian Science Monitor • Southern Living Our current climate of partisan fury is not new, and in *The Soul of America* Meacham shows us how what Abraham Lincoln called the "better angels of our nature" have repeatedly won the day. Painting surprising portraits of Lincoln and other presidents, including Ulysses S. Grant, Theodore Roosevelt, Woodrow Wilson, Franklin D. Roosevelt, Harry S. Truman, Dwight Eisenhower, and Lyndon B. Johnson, and illuminating the courage of such influential citizen activists as Martin Luther King, Jr., early suffragettes Alice Paul and Carrie Chapman Catt, civil rights pioneers Rosa Parks and John Lewis, First Lady Eleanor Roosevelt, and Army-McCarthy hearings lawyer Joseph N. Welch, Meacham brings vividly to life turning points in American history. He writes about the Civil War, Reconstruction, and the birth of the Lost Cause; the backlash against immigrants in the First World War and the resurgence of the Ku Klux Klan in the 1920s; the fight for women's rights; the demagoguery of Huey Long and Father Coughlin and the isolationist work of America First in the years before World War II; the anti-Communist witch-hunts led by Senator Joseph McCarthy; and Lyndon Johnson's crusade against Jim Crow. Each of these dramatic hours in our national life have been shaped by the contest to lead

the country to look forward rather than back, to assert hope over fear—a struggle that continues even now. While the American story has not always—or even often—been heroic, we have been sustained by a belief in progress even in the gloomiest of times. In this inspiring book, Meacham reassures us, “The good news is that we have come through such darkness before”—as, time and again, Lincoln’s better angels have found a way to prevail. Praise for *The Soul of America* “Brilliant, fascinating, timely . . . With compelling narratives of past eras of strife and disenchantment, Meacham offers wisdom for our own time.”—Walter Isaacson “Gripping and inspiring, *The Soul of America* is Jon Meacham’s declaration of his faith in America.”—Newsday “Meacham gives readers a long-term perspective on American history and a reason to believe the soul of America is ultimately one of kindness and caring, not rancor and paranoia.”—USA Today

Lincoln on the Verge Aug 25 2019 WINNER OF THE LINCOLN FORUM BOOK PRIZE “A Lincoln classic...superb.” —The Washington Post “A book for our time.”—Doris Kearns Goodwin *Lincoln on the Verge* tells the dramatic story of America’s greatest president discovering his own strength to save the Republic. As a divided nation plunges into the deepest crisis in its history, Abraham Lincoln boards a train for Washington and his inauguration—an inauguration Southerners have vowed to prevent. *Lincoln on the Verge* charts these pivotal thirteen days of travel, as Lincoln discovers his power, speaks directly to the public, and sees his country up close. Drawing on new research, this riveting account reveals the president-elect as a work in progress, showing him on the verge of greatness, as he foils an assassination attempt, forges an unbreakable bond with the American people, and overcomes formidable obstacles in order to take his oath of office.

The American Nation Nov 01 2022 US social studies textbook (advance copy) for study and reference.

American Nation Apr 25 2022 This middle grades geography and cultures program puts the world at your fingertips in a single convenient text - ideal for curriculum that covers the whole world in one school year. The American Nation Jan 29 2020 A textbook for United States history from earliest Indian civilizations to the present, with maps, charts, activities, study questions, and review chapters.

The Virginia Dynasty Sep 18 2021 A vivid account of leadership focusing on the first four Virginia presidents--George Washington, Thomas Jefferson, James Madison, and James Monroe--from the bestselling historian and author of *James Madison*. From a small expanse of land on the North American continent came four of the nation's first five presidents--a geographic dynasty whose members led a revolution, created a nation, and ultimately changed the world. George Washington, Thomas Jefferson, James Madison, and James Monroe were born, grew to manhood, and made their homes within a sixty-mile circle east of the Blue Ridge Mountains. Friends and rivals, they led in securing independence, hammering out the United States Constitution, and building a working republic. Acting together, they doubled the territory of the United States. From their disputes came American political parties and the weaponizing of newspapers, the media of the day. In this elegantly conceived and insightful new book from bestselling author Lynne Cheney, the four Virginians are not marble icons but vital figures deeply intent on building a nation where citizens could be free. Focusing on the intersecting roles these men played as warriors, intellectuals, and statesmen, Cheney takes us back to an exhilarating time when the Enlightenment opened new vistas for humankind. But even as the Virginians advanced liberty, equality, and human possibility, they held people in slavery and were slaveholders when they died. Lives built on slavery were incompatible with a free and just society; their actions contradicted the very ideals they espoused. They managed nonetheless to pass down those ideals, and they became powerful weapons for ending slavery. They inspired Abraham Lincoln and Frederick Douglass and today undergird the freest nation on earth. Taking full measure of strengths and failures in the personal as well as the political lives of the men at the center of this book, Cheney offers a concise and original exploration of how the United States came to be.

The American Nation Aug 18 2021 Conforms to the information resources of the web site MyHistoryLab.

America Aug 06 2020 Prentice Hall *America: A History of Our Nation* is a multiple media program designed to engage today's students in the exciting story of our nation's past. Built around meeting the way you teach and the way your students learn, the program provides different pathways into the content for all levels and types of learners, while providing cutting-edge teacher support developed to provide a "wow!" factor at each stage of instruction. The program is built around Essential Questions designed to stimulate conversation, emphasize source analysis, hands-on learning, and critical thinking with a goal of helping students to achieve an enduring understanding of America's past. Authors James West Davidson, Michael B. Stoff, and Grant Wiggins, co-author of *Understanding by Design*, focus on the "why" of history--helping students make meaning of what happened long ago and why it remains important to us today. The Survey Edition supports all American History courses from the beginnings to the modern day.

One Nation Under God Feb 09 2021 The provocative and authoritative history of the origins of Christian America in the New Deal era We're often told that the United States is, was, and always has been a Christian nation. But in *One Nation Under God*, historian Kevin M. Kruse reveals that the belief that America is fundamentally and formally Christian originated in the 1930s. To fight the "slavery" of FDR's New Deal, businessmen enlisted religious activists in a campaign for "freedom under God" that culminated in the election of their ally Dwight Eisenhower in 1952. The new president revolutionized the role of religion in American politics. He inaugurated new traditions like the National Prayer Breakfast, as Congress added the phrase "under God" to the Pledge of Allegiance and made "In God We Trust" the country's first official motto. Church membership soon soared to an all-time high of 69 percent. Americans across the religious and political spectrum agreed that their country was "one nation under God." Provocative and authoritative, *One Nation Under God* reveals how an unholy alliance of money, religion, and politics created a false origin story that continues to define and divide American politics to this day.

The Fateful Triangle May 15 2021 Race: the sliding signifier -- Ethnicity and difference in global times -- Nations and diasporas

America Aflame May 03 2020 In this spellbinding new history, David Goldfield offers the first major new interpretation of the Civil War era since James M. McPherson's *Battle Cry of Freedom*. Where past scholars have limned the war as a triumph of freedom, Goldfield sees it as America's greatest failure: the result of a breakdown caused by the infusion of evangelical religion into the public sphere. As the Second Great Awakening surged through America, political questions became matters of good and evil to be fought to the death. The price of that failure was horrific, but the carnage accomplished what statesmen could not: It made the United States one nation and eliminated slavery as a divisive force in the Union. The victorious North became synonymous with America as a land of innovation and industrialization, whose teeming cities offered squalor and opportunity in equal measure. Religion was supplanted by science and a gospel of progress, and the South was left behind. Goldfield's panoramic narrative, sweeping from the 1840s to the end of Reconstruction, is studded with memorable details and luminaries such as Harriet Beecher Stowe, Frederick Douglass, and Walt Whitman. There are lesser known yet equally compelling characters, too, including Carl Schurz—a German immigrant, warhero, and postwar reformer—and Alexander Stephens, the urbane and intellectual vice president of the Confederacy. *America Aflame* is a vivid portrait of the "fiery trial" that transformed the country we live in.

No Property in Man Oct 27 2019 Driving straight to the heart of the most contentious issue in American history, Sean Wilentz argues controversially that, far from concealing a crime against humanity, the U.S. Constitution limited slavery’s legitimacy—a limitation which in time inspired the antislavery politics that led to Southern secession, the Civil War, and Emancipation.

The American Nation Jul 17 2021

Civic Gifts Apr 01 2020 In *Civic Gifts*, Elisabeth S. Clemens takes a singular approach to probing the puzzle that is the United States. How, she asks,

did a powerful state develop within an anti-statist political culture? How did a sense of shared nationhood develop despite the linguistic, religious, and ethnic differences among settlers and, eventually, citizens? Clemens reveals that an important piece of the answer to these questions can be found in the unexpected political uses of benevolence and philanthropy, practices of gift-giving and reciprocity that coexisted uneasily with the self-sufficient independence expected of liberal citizens. *Civic Gifts* focuses on the power of gifts not only to mobilize communities throughout US history, but also to create new forms of solidarity among strangers. Clemens makes clear how, from the early Republic through the Second World War, reciprocity was an important tool for eliciting both the commitments and the capacities needed to face natural disasters, economic crises, and unprecedented national challenges. Encompassing a range of endeavors from the mobilized voluntarism of the Civil War, through Community Chests and the Red Cross to the FDR-driven rise of the March of Dimes, Clemens shows how voluntary efforts were repeatedly articulated with government projects. The legacy of these efforts is a state co-constituted with, as much as constrained by, civil society.

The Secret History of America Dec 10 2020 A compilation of rare works on the untold history and destiny of America by acclaimed occult writer Manly P. Hall. Writer and scholar Manly P. Hall (1901-1990) is one of the most significant names in the study of the esoteric, symbolic, and occult. His legendary book *The Secret Teachings of All Ages* has been an underground classic since its publication in 1928. *The Secret History of America* expands on that legacy, offering a collection of Hall's works—from books and journals to transcriptions of his lectures—all relating to the hidden past and unfolding future of our nation. Hall believed that America was gifted with a unique purpose to explore and share principles of personal freedom, self-governance, and independent thought. PEN Award-winning historian, Mitch Horowitz has curated a powerful collection of Hall's most influential and insightful works that capture and explore these ideas. Never before collected in one volume, the material in *The Secret History of America* explores the rich destiny, unseen history, and hidden meaning of America.

The American Nation Jul 05 2020 This edition was developed specifically for courses covering up to the Civil War or Reconstruction. The text can also be used for the first part of a two-year American history course.

American Nations Feb 21 2022 • A New Republic Best Book of the Year • The Globalist Top Books of the Year • Winner of the Maine Literary Award for Non-fiction • Particularly relevant in understanding who voted for who in this presidential election year, this is an endlessly fascinating look at American regionalism and the eleven "nations" that continue to shape North America. According to award-winning journalist and historian Colin Woodard, North America is made up of eleven distinct nations, each with its own unique historical roots. In *American Nations* he takes readers on a journey through the history of our fractured continent, offering a revolutionary and revelatory take on American identity, and how the conflicts between them have shaped our past and continue to mold our future. From the Deep South to the Far West, to Yankeedom to El Norte, Woodard (author of *American Character: A History of the Epic Struggle Between Individual Liberty and the Common Good*) reveals how each region continues to uphold its distinguishing ideals and identities today, with results that can be seen in the composition of the U.S. Congress or on the county-by-county election maps of any hotly contested election in our history.

Patriarch Jun 15 2021 Presents an intimate account of Washington during his presidency, recounting his struggle to contain the conflicts in his cabinet (especially the celebrated feud between Jefferson and Hamilton) and to keep the new nation out of Europe's influence. 25,000 first printing.

Land, People, Nation Sep 26 2019 Based on the CALLA model, the "Land, People, Nation" series is an effective tool for students to acquire English and academic content simultaneously. It also serves as a valuable alternative for students experiencing difficulty with a basal social studies text. New in the Second Edition: Alignment with national history standards, including correlations to assist in lesson planning. Explicit instruction on learning strategies. The inclusion of CALLA Phases (Preparation, Presentation, Practice, Self-evaluation, and Expansion) on each page of the student text. Website listings to assist instructors in integrating technology into the program.
