[Activating Happiness](#) Jul 05 2020 It's not just big choices that can radically change our lives—sometimes it's the small ones. [Activating Happiness](#) offers powerful, evidence-based strategies to help you conquer low motivation, nix negative moods, and defeat depression by actively making positive choices in small, everyday moments. If you have depression or just suffer from low mood and lack of motivation, you know that your life isn't going to change with one grand, sweeping gesture. But you can make important decisions every day—whether it's getting off the couch and going for a walk, signing up for a course in pottery or screenwriting, or just setting aside some time to meet and chat with a good friend over coffee. These little things won't change your life all at once. But over time, they will shape the way you live and see the world and keep you on a path to wellness. In [Activating Happiness](#), you'll find solid strategies based in behavioral activation and acceptance and commitment therapy (ACT) to help you break the cycle of avoidance, guilt, shame, and hopelessness that can take hold when you're feeling your lowest. Using this guide, you'll find little, doable ways to "show up" to your life, get the ball rolling, and start really feeling better, instead of just reassuring others. You'll learn to set healthy goals for your body like eating and sleeping well, as well as healthy goals for your mind. Most importantly, you'll discover how to view your life through the lens of your own deepest values, which will spark a commitment to real, lasting change. The best thing about change is that you can start anywhere. By building a life—moment by moment—of rewarding behaviors that correspond to your values, you have the recipe for getting and staying well at your fingertips. This book will guide your way.

Now, we have [Jump Start](#)--a concise guide that offers Wolf's writing techniques from his Free River Press workshops across the country. [Operation Jump Start](#) Nov 20 2021 This book recounts a unique chapter in the National Guard's efforts to keep America's borders secure. Starting in June 2006 and lasting until July 2008, Operation Jump Start exhibited unprecedented cooperation and teamwork among federal agencies engaged in protecting the homeland. The U.S. Customs and Border Protection, the U.S. Border Patrol and the National Guard created a cooperative, operational environment that will endure as an example on how to do things right. Based in Arizona, California, New Mexico and Texas, the Operation's mission was not to close the nation's border with Mexico but to make it more secure for legal immigration and commerce. By the time Operation Jump start ended, criminal activities of all types had declined along the border, and physical improvements made by Guard engineers along the border seemed certain to reduce illegal activities for the foreseeable future.

[Unplugged Play: Grade School](#) Dec 30 2019 Screen-free. Battery-free. Pure fun. When [Unplugged Play](#) was first published as a parent-friendly encyclopedia of games and activities for all ages, Richard Louv, author of [Last Child in the Woods](#), called it "A terrific prescription for much of what ails children and parents today." Now [Unplugged Play](#) gets a fresh and appealing new life as three separate, brightly designed books, each targeted to a specific age group. The need, of course, is significantly more pressing than when the book was originally published—screens are far more ubiquitous, causing parents even greater concern about their overuse—and these timeless, imaginative, easy-to-implement games are here to the rescue. Each volume includes games to play alone and games to play with siblings and friends and parents. Games to play indoors and games for outside. There are craft projects, music activities, guessing games—the kinds of truly fun activities designed to stretch the imagination, spark creativity, build strong bodies, forge friendships, and explore the real world. The opposite of hunkering down in front of an addictive screen.

Hollywood Westerns and American Myth Aug 06 2020 In this pathbreaking book one of America's most distinguished philosophers brilliantly explores the status and authority of law and the nature of political allegiance through close readings of three classic Hollywood Westerns: Howard Hawks' Red River and John Ford's The Man Who Shot Liberty Valance and The Searchers. Robert Pippin treats these films as sophisticated mythic accounts of a key moment in American history: its "second founding," or the western expansion. His central question concerns how these films explore classical problems in political psychology, especially how the virtues of a commercial republic gained some hold on individuals at a time when the heroic and martial virtues were so important. Westerns, Pippin shows, raise central questions about the difference between private violence and revenge and the state's claim to a legitimate monopoly on violence, and they show how these claims come to be experienced and accepted or rejected. Pippin's account of the best Hollywood Westerns brings this genre into the center of the tradition of political thought, and his readings raise questions about political psychology and the political passions that have been neglected in contemporary political thought in favor of a limited concern with the question of legitimacy.

Jump Jul 25 2019 One of the most successful Black businessmen in the country, who has led Nike's Jordan Brand from a \$200M sneaker company to a \$4B global apparel juggernaut, tells the remarkable story of his rise from gangland violence to the pinnacles of international business. Jump tells Larry Miller's journey from the violent streets of West Philly in the 1960s to the highest echelons of American sports and industry. Miller wound up in jail more than once, especially as a teenager. But he immersed himself in the educational opportunities, eventually took advantage of a Pennsylvania state education-release program offered to incarcerated people, and was able to graduate with honors from Temple University. When revealing his gangland past caused him to lose his first major job opportunity, Miller vowed to keep it a secret. He climbed the corporate ladder with a number of companies such as Kraft Foods, Campbell's Soup, and Jantzen, until Nike hired him to run its domestic apparel operations. Around the time of Michael Jordan's basketball retirement, Nike Chairman Phil Knight made Larry Miller president of the newly formed Jordan Brand. In 2007 Paul Allen convinced Miller to jump to the NBA to become president of the Portland Trailblazers, one of the first African-Americans to lead a professional sports team, before returning to Jordan Brand in 2012. All

along, Miller lived two lives: the secret of his violent past haunted him, invading his days with migraines and his sleep with nightmares of getting hauled back to jail. More than a rags-to-riches story, Jump is also a passionate appeal for criminal justice reform and expanded educational opportunities for incarcerated and formerly incarcerated people across the United States. Drawing on his powerful personal story, as well as his vast and well-connected network, Miller plans to use Jump as a launching point to help expand such opportunities and to provide an aspirational journey for those who need hope.
