Hypnotic Writing Jan 11 2021 Discover the secrets of written persuasion! "The principles of hypnosis, when applied to copywriting, add a new spin to selling. Joe Vitale has taken hypnotic words to set the perfect sales environment and then shows us how to use those words to motivate a prospect to take the action you want. This is truly a new and effective approach to copywriting, which I strongly recommend you learn. It's pure genius." -Joseph Sugarman, author of Triggers "I've read countless book on persuasion, but none come close to this one in showing you exactly how to put your readers into a buying trance that makes whatever you are offering them irresistible." -David Garfinkel, author of Advertising Headlines That Make You Rich "I am a huge fan of Vitale and his books, and Hypnotic Writing (first published more than twenty years ago), is my absolute favorite. Updated with additional text and fresh examples, especially from e-mail writing, Joe's specialty, Hypnotic Writing is the most important book on copywriting (yes, that's really what it is about) to be published in this century. Read it. It will make you a better copywriter, period." -Bob Bly, copywriter and author of The Copywriter's Handbook "I couldn't put this book down. It's eye opening and filled with genuinely new stuff about writing and persuading better. And it communicates it brilliantly and teaches it brilliantly- exemplifying the techniques by the writing of the book itself as you go along." -David Deutsch, author of Think Inside the Box, www.thinkinginside.com "Hypnotic Writing is packed with so much great information it's hard to know where to start. The insights, strategies, and tactics in the book are easy to

apply yet deliver one heck of a punch. And in case there's any question how to apply them, the before-and-after case studies drive the points home like nothing else can. Hypnotic Writing is not just about hypnotic writing. It is hypnotic writing. On the count of three, you're going to love it. Just watch and see." -Blair Warren, author of *The Forbidden Keys to Persuasion*

Brainstorm Dec 30 2019 It's true: a mind is a terrible thing to waste. Yet that's what we do when we spend our weekend — and neurons — reliving a workplace squabble, spend a family visit chewing over childhood issues, or spend hours beating ourselves up when someone brings one of our own long-held (but never worked on) ideas to fruition. This kind of obsessing gets us, like a hamster on a wheel, nowhere. But as noted creativity expert Eric Maisel asserts, obsessing productively leads to fulfillment rather than frustration. A productive obsession, whether an idea for a novel, a business, or a vaccine, is chosen deliberately and pursued with determination. In this provocative, practical guide, Maisel coaches you to use the tendency to obsess to your creative advantage, fulfilling both your promise and your promises to yourself.

The Dream Manager Jul 29 2022 A business parable about how companies can achieve remarkable results by helping their employees fulfill their dreams Managing people is difficult. With disengagement and turnover on the rise, many managers are scratching their heads wondering what to do. It's not that we don't dream of being great managers, it's just that we haven't found a practical and efficient way to do it. Until now . . . The fictional company in this remarkable book is grappling with real problems of high turnover and low morale -- so the managers begin to investigate what really drives the employees. What they discover is that the key to motivation isn't necessarily the promise of a bigger paycheck or title, but rather the fulfillment of crucial personal dreams. They also learned that people at every level need to be offered specific kinds of help and encouragement -- or our dreams will forever remain just dreams as we grow dissatisfied with our lives and jobs. Beginning with his important thought that a company can only become the-best-version-of-itself to the extent that its employees are becoming better-versions-of-themselves, Matthew Kelly explores the connection between the dreams we are chasing personally and the way we all engage at work. Tackling head-on the growing problem of employee disengagement, Kelly explores the dynamic collaboration that is unleashed when people work together to achieve company objectives and personal dreams. The power of *The Dream Manager* is that simply becoming aware of the concept will change the way you manage and relate to people instantly and forever. What's your dream?

The Ecstasy of Surrender Apr 25 2022 Are you longing for your life to be easier and more fun? Would you like to stop pushing, micromanaging, and forcing things so you can relax? What if you could enjoy what you have instead of always lusting for 'more'? What if you could live in 'the zone', propelled by powerful currents toward the right people and opportunities? What if you could stop worrying about money and live with more emotional ease in the moment? If you answer 'yes' to all these questions and desire lasting positive change, then prepare to experience the ecstasy of surrender. The art of letting go, Dr Judith Orloff explains, is the secret key to manifesting power and success in all areas of life, including work, relationships, sexuality, radiant ageing and health and healing. In our superconnected world where emails and text messages constantly interrupt us, it's easier to let go than you think. Once embraced, surrendering removes roadblocks and the exhaustion that comes from 'trying too hard' – and it helps you achieve goals more effortlessly and brings ongoing happiness. With her stunning gift for storytelling coupled with her unique, results-oriented approach to physical, emotional and spiritual health – marrying neuroscience, psychiatry, intuitive medicine, energy techniques, and more – Judith provides a powerful, practical and accessible map for anyone who is longing to be happier but who feels stuck, burned-out, tense, worried or afraid to let go.

Beyond Individualism Aug 06 2020 In this pathbreaking and provocative new treatment of some of the oldest dilemmas of psychology and relationship, Gordon Wheeler challenges the most basic tenet of the West cultural tradition: the individualist self. Characteristics of this self-model are our embedded yet pervasive ideas that the individual self precedes and transcends relationship and social field conditions and that interpersonal experience is somehow secondary and even opposed to the needs of the inner self. Assumptions like these, Wheeler argues, which are taken to be inherent to human nature and development, amount to a controlling cultural paradigm that does considerable violence to both our evolutionary self-nature and our intuitive self-experience. He asserts that we are actually far more relational and intersubjective than our cultural generally allows and that these relational capacities are deeply built into our inherent evolutionary nature. His argument progresses from the origins and lineage of the Western individualist self-model, into the basis for a new model of the self, relationship, and experience out of the insights and implications of Gestalt psychology and its philosophical derivatives, deconstructivism and social constructionism. From there, in a linked series of experiential chapters, each of them a groundbreaking essay in its own right, he takes up the essential dynamic themes of self-experience and relational life: interpersonal orientation, meaning-making and adaptation, support, shame, intimacy, and finally narrative and gender, culminating in considerations of health, ethics, politics, and spirit. The result is a picture and an experience of self that is grounded in the active dynamics of attention, problem solving, imagination, interpretation, evaluation, emotion, meaning-making, narration, and, above all, relationship. By the final section, the reader comes away with a new sense of what it means to be human and a new and more usable definition of health.

Heart of Europe Mar 25 2022 An Economist and Sunday Times Best Book of the Year “Deserves to be hailed as a magnum opus.” —Tom Holland, The Telegraph “Ambitious...seeks to rehabilitate the Holy Roman Empire’s reputation by re-examining its place within the larger sweep of European history...Succeeds splendidly in rescuing the empire from its critics.” —Wall Street Journal Massive, ancient, and powerful, the Holy Roman Empire formed the heart of Europe from its founding by Charlemagne to its destruction by Napoleon a millennium later. An engine for inventions and ideas, with no fixed capital and no common language or culture, it derived its legitimacy from the ideal of a unified Christian civilization—though this did not prevent emperors from clashing with the pope for supremacy. In this strikingly ambitious book, Peter H. Wilson explains how the Holy Roman Empire worked, why it was so important, and how it changed over the course of its existence. The result is a tour de force that raises countless questions about the nature of political and military power and the legacy of its offspring, from Nazi Germany to the European Union. “Engrossing...Wilson is to be congratulated on writing the only English-language work that deals with the empire from start to finish...A book that is relevant to our own times.” —Brendan Simms, The Times “The culmination of a lifetime of research and thought...an astonishing scholarly achievement.” —The Spectator “Remarkable...Wilson has set himself a staggering task, but it is one at which he succeeds heroically.” —Times Literary Supplement

Bone Marrow Nei Kung Jan 29 2020 A guide to nourishing the body through bone marrow rejuvenation exercises • Presents exercises to “regrow” bone marrow, revive the internal organs, and prevent osteoporosis • Explains the use of bone breathing and bone compression, “hitting” to detoxify the body, and sexual energy massage and chi weight lifting to enhance the life force within Most Westerners believe that a daily physical exercise program helps slow the aging process. Yet those whose bodies appear most physically fit on the outside often enjoy only the same life span as the average nonathletic person. It is the internal organs and glands that nourish every function of the body, and it is the bone marrow that nourishes and rejuvenates the organs and glands through the production of blood. By focusing only on the muscles without cultivating the internal organs, bones, and blood, the Western fitness regimen can ultimately exhaust the internal system. In *Bone Marrow Nei Kung* Master Mantak Chia reveals the ancient mental and physical Taoist techniques used to “regrow” bone marrow, strengthen the bones, and rejuvenate the organs and glands. An advanced practice of Iron Shirt Chi Kung, *Bone Marrow Nei Kung* was developed as a way to attain the “steel body” coveted in the fields of Chinese medicine and martial arts. This method of absorbing energy into the bones revives the bone marrow and reverses the effects of aging through the techniques of bone breathing, bone compression, and sexual energy massage, which stimulates the hormonal production that helps prevent osteoporosis. Also included is extensive information on chi weight lifting and the practice of “hitting” to detoxify the body.

Better Pensions, Better Jobs Jun 23 2019 The Latin America and Caribbean (LAC) region has reduced its inequality and poverty, and is looking towards the future with greater optimism than in the past. As the region grows, new problems appear that economic policymakers must address. How to provide adequate pensions for the elderly is one such problem. This book offers an analysis of pension systems from the perspective of the functioning of the regions labor markets. It clarifies why, more than half a century after pension systems were created, only a minority of workers in the region save for their pension in the contributory systems through payroll taxes. The study points out that the problem lies not only in the lack of coverage, but also in the low level of benefits, even of contributory pensions. It argues that to design public policies for pensions, it is essential to understand the complex web of interactions between employers and workers that take place in the labor market.

The New Book of Middle Eastern Food Nov 08 2020 The definitive volume on Middle Eastern cooking, a modern classic from the award-winning, bestselling author of *The Book of Jewish Food* and Claudia Roden's *Mediterranean* Originally published in 1972 and hailed by James Beard as "a landmark in the field of cookery," this new version represents the accumulation of the author's years of extensive travel throughout the ever-changing landscape of the Middle East, gathering recipes and stories. Now featuring more than 800 recipes, including the aromatic variations that accent a dish and define the country of origin: fried garlic and cumin and coriander from Egypt, cinnamon and allspice from Turkey, sumac and tamarind from Syria and Lebanon, pomegranate syrup from Iran, preserved lemon and harissa from North Africa. Claudia Roden has worked out simpler approaches to traditional dishes, using healthier ingredients and time-saving methods without ever sacrificing any of the extraordinary flavor, freshness, and texture that distinguish the cooking of this part of the world. Throughout these pages she draws on all four of the region's major cooking styles: • The refined haute cuisine of Iran, based on rice exquisitely prepared and embellished with a range of meats, vegetables, fruits, and nuts • Arab cooking from Syria, Lebanon, and Jordan—at its finest today, and a good source for vegetable and bulgur wheat dishes • The legendary Turkish cuisine, with its kebabs, wheat and rice dishes, yogurt salads, savory pies, and syrupy pastries • North African cooking, particularly the splendid fare of Morocco, with its heady mix of hot and sweet, orchestrated to perfection in its couscous dishes and tagines From the tantalizing mezze—succulent bites of filled fillo crescents and cigars, chopped salads, and stuffed morsels, as well as tahina, chickpeas, and eggplant in their many guises—to the skewered meats and savory stews and hearty grain and vegetable dishes, here is a rich array of Middle Eastern cooking.

The Magdalene Nov 28 2019 'A story that, for too long, has been crying out to be told' Henry Lincoln, author of *Holy Blood, Holy Grail* 'The heights that the climb may lead you to are in proportion to the depths to which you are willing to delve' Mary Magdalene is arguably one of Jesus' best-known disciples and yet we know very little about her. From the writing of the New Testament to the filming of *The Da Vinci Code*, her image has been repeatedly conscripted, contorted and contradicted. Mary is considered by many as an outcast, underserving of Jesus's love. In this follow up book to *The Seer*, we join Lars Muhl as he seeks to find out more about the intimate relationship between Jesus (Yeshua) and Mary Magdalene. This is the story of a forgotten feminine power recounted in parallel to the author's journey. *The Magdalene* is the second book in the *Grail Trilogy*, otherwise known as *The O Manuscript*

Attaining Your Desires Mar 01 2020 *If You Could Talk To The Greatest Master of This Century - What Would You Ask?* The sages of the centuries, each one tincturing their thought with their own soul essence, have united in telling us that, ""As a man thinketh in his heart, so is he."" It has been established by the experience of the ages that always the law is the same. But HOW shall one think in their heart, so that only goodness may blossom and ripen into rich deed and rare result? What is the apparently mysterious secret by which life's dull metal is transmuted into precious mintage? As Troward has said, ""Thought is the only action of the mind. By your habitual thoughts you create corresponding external physical conditions, because you thereby create the nucleus which attracts to itself its own correspondence, in due order, until the finished work is manifested on the material plane."" Soul Wisdom Mar 13 2021 Internationally acclaimed healer Dr Zhi Gang Sha provides a simple answer to the age-old question, what is the real secret to healing? The answer? Heal the soul first, then healing of the mind and body will follow. Trained as both a medical doctor and a practitioner of traditional Chinese medicine, Dr Sha takes integrative medicine to a whole new and exciting level that goes beyond mind over matter, emphasizing soul over matter. Soul Wisdom argues that spiritual blockages are due to bad karma, the sum of total mistakes one has made in this and previous lifetimes. By following Dr. Sha's teachings, readers can learn to clear up these blockages, particularly using such simple notions such as unconditional love, forgiveness and service. As Dr. Sha puts it, 'Love melts all blockages and forgiveness brings peace.' And most importantly, you have the ability to heal yourself. Essentially this is the an introductory guide for all of us to learn practical techniques to help open our minds, empower, heal and transform every aspect of our lives.

Developing Culturally and Historically Sensitive Teacher Education Nov 20 2021 This volume explores the literacy education master's degree program developed at Universidad de Guadalajara in Jalisco, Mexico, with the aim of addressing the nation's emerging social, economic, technological, and political needs. Developing the program required taking into account the cultural diversity, historical economic disparities, indigenous and colonial cultures, and power inequities of the Mexican nation. These conditions have produced economic structures that maintain the status quo that concentrates wealth and opportunity in the hands of the very few, creating challenges for the education and economic life for the majority of the population. The program advocates providing tools for youth to critique and change their surroundings, while also learning the codes of power that provide them a repertoire of navigational means for producing satisfying lives. Rather than arguing that the program can be replicated or taken to scale in different contexts, the editors focus on how their process of looking inward to consider Mexican cultures enabled them to develop an appropriate educational program to address Mexico's historically low literacy rates. They show that if all teaching and learning is context-dependent, then focusing on the process of program development, rather than on the outcomes that may or may not be easily applied to other settings, is appropriate for global educators seeking to provide literacy teacher education grounded in national concerns and challenges. The volume provides a process model for developing an organic program designed to address needs in a national context, especially one grounded in both colonial and heritage cultures and one in which literacy is understood as a tool for social critique, redress, advancement, and equity.

Early Iron Age Exchange in the West Sep 06 2020 The so-called Phoenician 'expansion' in the western Mediterranean is treated here from the point of view of the social and economic factors that led to the phenomenon and the way it evolved over a period of approximately 300 years. To this end, the book gathers, collates and analyses the disparate evidence for networks of interaction in the western Mediterranean and Atlantic regions of Europe and north Africa in the period from the 9th to the 7th century BC. The focus form the less-well known areas of the expansion, the Iberian Peninsula and north-west Africa, which are studied within the broader context of Mediterranean interactions in the Late Bronze and Early Iron Age periods from the Near East to the Atlantic. The discussion is detailed and takes into account some of the latest archaeological discoveries, along with previously unpublished material. Detailed descriptions of selected sites are provided in an appendix.
