Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States Aug 30 2022 Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well

as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

[Domestic Minor Sex Trafficking](#) Nov 01 2022 The domestic sex trafficking of minors is a problem of growing concern yet little critical attention. This book analyzes the forces behind the sex-trafficking industry in the United States and provides a much-needed reference for practitioners. It adopts a holistic approach, pursuing a nuanced exploration of these young people's experiences, their treatment, and outside efforts to combat sex trafficking. The book features interviews with service providers and experts, and incorporates recent research, thereby mapping the complex factors associated

with young people's involvement in trading sex and the social connections that facilitate their behavior. It considers the experiences of both those who "choose" sex work and those who are forced into it by circumstances or third parties, and it discusses the networks of friends and close acquaintances who introduce newcomers to the trade. In addition, it takes a hard look at how local and federal responses to trafficking increase young people's vulnerability to trading sex. Urging policymakers and practitioners to move beyond the simple framework of "rescuing" victims and "punishing" villains, this book calls for policies and programs that focus on the failure of social and cultural systems and respond better to the young people caught in this web.

Combating Human Trafficking Apr 01 2020 A centuries-old crime, human trafficking occurs not only in undeveloped countries, but also in some surprising locations. Right here in the United States, individuals are recruited, transported, and held by unlawful means—either through deception or under threat of violence. Approaching the topic from a law enforcement perspective, *Combating Human Trafficking: A Multidisciplinary Approach* provides an unprecedented look at the investigation of this phenomenon in America. Beginning with historical, sociological, and psychological perspectives, the book discusses how authorities can best conduct an investigation of trafficking. Individual chapters written by experts in law enforcement explore a host of topics, including: Border issues between Mexico and the U.S., including the trafficking of people, drugs, and firearms The role of the Internet in human trafficking Child victim recruitment into sex trafficking How sexually oriented businesses such as escort services, hostess bars, and massage parlors can be fronts for sex trafficking The prevalence of human trafficking among street gangs Forced labor aspects, especially with respect to illegal immigrants How victims are chosen Theoretical, practical, and ethical considerations in providing effective services to victims An ideal resource for police investigators, police training, and community outreach organizations, the book is also suitable as a college text for criminal justice courses. It is hoped that the awareness created through this text will provide the knowledge and tools needed to help to end this form of modern-day slavery.

The Trafficking of Persons Sep 18 2021 Over 700,000 people are trafficked across international borders every year. Of those, the U.S. Department of State estimates that between 14,500 and 17,500 are trafficked into the United States. Today, the U.S. and other nations are beginning to recognize the magnitude of the problem and attempt to address the victimization caused by human trafficking. This book investigates the types of human trafficking, and discusses U.S. and international responses to combat and end all forms of this criminal activity. With discussion-provoking questions at the end of each chapter and specific examples of trafficking activity, this book is appropriate for criminology courses, classes dedicated to victims

Child Sex Trafficking in the United States May 15 2021 The editors of this book focus on domestic sex trafficking, including the prostitution of children. The exact number of child victims of sex trafficking in the United States is unknown because comprehensive research and scientific data are lacking. Sex trafficking of children appears to be fueled by a variety of environmental and situational variables ranging from poverty or the use of prostitution by runaway and "thrown-away" children to provide for their subsistence needs to the recruitment of children by organized crime units for prostitution. Experts agree that any efforts to reduce the prevalence of child sex trafficking, as well as other forms of trafficking, should address not only the supply, but also the demand. In this book, demand reduction strategies are considered, such as increasing public awareness and prevention, as well as bolstering investigations and prosecutions of those who buy illegal commercial sex.

The Legacy of Racism for Children Nov 20 2021 When children become entangled with the law, their lives can be disrupted irrevocably. When those children are underrepresented minorities, the potential for disruption is even greater. *The Legacy of Racism for Children: Psychology, Law, and Public Policy* examines issues that arise when minority children's lives are directly or indirectly influenced by law and public policy. Uniquely comprehensive in scope, this trailblazing volume offers cutting-edge chapters on the intersections of race/ethnicity within the context of child maltreatment, child dependency court, custody and adoption, familial incarceration, school discipline and the "school-to-prison pipeline," juvenile justice, police/youth interactions, and jurors' perceptions of child and adolescent victims and defendants. The book also includes chapters focused on troubling situations that are less commonly researched, but growing in importance, including the role of race and racism in child sex trafficking and US immigration law and policy. Thus, individual chapters explore myriad ways in which law and policy shape the lives of marginalized children and adolescents - racial and ethnic minorities - who historically and presently are at heightened risk for experiencing disadvantageous consequences of law and policy. In so doing, *The Legacy of Racism for Children* can help social scientists to understand and work to prevent the perpetuation of racial discrimination in American laws and public policies.

The Slave Across the Street Oct 27 2019 *** Wall Street Journal and USA Today best seller! *** While more and more people each day become aware of the dangerous world of human trafficking, most people in the U.S. still believe this is something that happens to foreign women, men, and children--not something that happens to their own. In this powerful true story, Theresa L. Flores shares how her life as an All-American, blonde-haired 15-year-old teenager who could have been your neighbor was enslaved into the dangerous world of sex trafficking while living in an upper-middle class suburb of Detroit. Her story peels the cover off of this horrific criminal activity and gives dedicated activists as well as casual bystanders a glimpse into the underbelly of trafficking. Allender, Ph.D.; Professor of Counseling Psychology, Founding President; The Seattle School of Theology and Psychology "This book is heartbreaking. Not in the pain that it describes -which is horrific - but in the beauty that it calls out to in the midst of the pain." - Christa Foster Crawford, Anti-Trafficking Consultant, Trafficking Resource Connection, Adjunct Assistant Professor of Children at Risk, Fuller Theological Seminary, School of Intercultural Studies She was only four years old when she was sold into the sex trade. White picket fences and steepled churches all guarded secrets that were not ever supposed to be told. In kindergarten, she began praying every night that Jesus would let her die. In second grade, she sat in church on a Sunday morning swinging her feet from a wooden pew behind the man who had paid to rape her the night before. Her perpetrators were from all walks of life. An engineer, a police officer, a bait shop owner, business men, farmers, younger men and old; different men all feeding the same lust. The only thing that they had in common was their brutal love for little girls. She shouldn't have survived it. If God had answered her prayers, she wouldn't have. Here is the true account of how she was brought out of captivity and into a life of freedom.

Stolen Aug 25 2019 Sex trafficking is currently a hot news topic, but it is not a new problem or just a problem in "other" countries. Every year, an estimated 300,000 American children are at risk of being lured into the sex trade, some as young as eight years old. It is thought that up to 90

percent of victims are never rescued. *Stolen* is the true story of one survivor who escaped--more than once. First recruited while staying with her family at a hotel in Miami Beach, Katariina Rosenblatt was already a lonely and abused young girl who was yearning to be loved. She fell into the hands of a confident young woman who pretended friendship but slowly lured her into a child prostitution ring. For years afterward, a cycle of false friendship, threats, drugs, and violence kept her trapped. As Kat shares her harrowing experiences, readers will quickly realize the frightening truth that these terrible things could have happened to any child--a neighbor, a niece, a friend, a sister, a daughter. But beyond that, they will see that there is real hope for the victims of sex trafficking. *Stolen* is more than a warning. It is a celebration of survival that will inspire.

The Multi-Facets of Cyber-Sex Trafficking. A Call for Action and Reform from Society Oct 08 2020 Master's Thesis from the year 2014 in the subject Law - Public Law / Constitutional Law / Basic Rights, New York University (Center for Global Affairs), course: Graduate Thesis, language: English, abstract: In the year 2014, human trafficking is still prevalent. Traffickers around the world abuse vulnerable individuals and rob them of their freedom to be safe from harm despite the international and national laws that are in place. In particular, sex trafficking, a subset of human trafficking is a form of discrimination in which people in power, typically men, take advantage of the vulnerabilities of women and children— though men are also victims—to exploit them for their services, whether for labor and/or sex. In addition, deception, fraud, force, and coercion are often used to recruit victims (UNODC 2000, Article 3(a)) although that should not be the main factor when investigating and prosecuting these crimes; for children proof of the threat or use of force or coercion is not required. Already a hidden crime due to the difficulty of identifying the traffickers and victims, the advances in internet technology have offered traffickers a new mechanism to escape detection from law enforcement. Internet offers affordability, accessibility, and anonymity -the “Triple-A Engine Effect” (Manning 2006, 133). Shawn Henry, former Executive Assistant Director of the FBI informed the public that the Internet, despite its contribution to knowledge, has many setbacks. “At any given time, there are an estimated 750,000 child predators online — and they all have a key to your house via the Internet” (FBI News Video 2011, Shawn Henry). As a result, it is time for individuals to be more cognizant of the importance of internet safety in order to combat cyber-sex trafficking. In May 2013, the use of the Internet to facilitate sex trafficking came to the fore again with the case in the Philippines in which three girls were rescued from a ring forcing them to perform live sex shows via the Internet for customers. Often the customers-- mostly Americans and Europeans--paid \$56/minute for the girls to perform live sexual acts (web-cam sex) based on the customers’ typed requests transmitted via computers (de Leon 2013). In the case of the three girls, who were eight years old when the abuse started, U.S. agencies, the Philippine National Police and the non-profit Visayan Forum Foundation received tips on one of their frequent customers, Jeffrey Herschell from Washington, Pennsylvania with the help of the victims. This information helped law enforcement arrest and sentence the offender to 12 years in federal prison (Coorlim 2013).

Words of Hope and Healing Jul 25 2019 Directors in the Children’s Advocacy Centers of Georgia state network of CACs have collaborated on a book certain to provide words of future hope and healing for the courageous children who have been victims of childhood sexual abuse, physical abuse, neglect, or exploitation. Indeed, anyone who has experienced a traumatic event, or have been the loved one of such a person, will find value and meaning to the thoughts and messages inside this book. Our mission is to be, now and always, for the children. _____ “People who work at Children’s Advocacy Centers go to work not just for a job, but in commitment to an important cause. Ultimately, their response and involvement with a child who has alleged child abuse and the child’s family, while significant, is relatively brief considering the future lifetime of a child. However, this can be a critical pivot point for everyone involved. With this book, the Children’s Advocacy Centers of Georgia, through the amazing words of the Executive Directors of Georgia’s CACs, seek to expand their positive influence beyond the immediate needs of child survivors of abuse and their families. The words in this book are parting gifts for the children and families who are served in Children’s Advocacy Centers, for them to read and contemplate, and then re-read, in their own individual journeys toward health and healing” (Chris Newlin, MS LPC, executive

director, National Children's Advocacy Center, Huntsville, Alabama).

Medical Perspectives on Human Trafficking in Adolescents Nov 28 2019 Human trafficking is an increasingly large issue in medicine, particularly for the adolescent population. The pubertal and neurologic development of early- and mid-adolescence may serve as a foothold for trauma bonds and human trafficking. To date, there are few case studies of human trafficking in the medical literature. More often, these cases are missed, and human trafficking patients are unlikely to disclose their victimization to their physicians for multiple reasons. As a result, physicians fail to ask key questions and fail to notice important red flags for human trafficking. Research shows that this is primarily due to a lack of medical training and awareness and a resultant denial on the part of many physicians that victims of human trafficking present to their clinics or specialties. This book provides clinicians with a case-based guide to scenarios they may encounter in their practice that involve human trafficking. These cases include those involving sex trafficking and labor trafficking; male and female and transgender victims; victims from a range of racial, ethnic, geographic and socioeconomic backgrounds; as well as presentations of adolescent and young adult victims to fields such as adolescent medicine, general pediatrics, neonatology, rheumatology, transplant medicine, and obstetrics-gynecology, in addition to the stereotypical presentations to emergency departments. Each case is followed by a discussion that highlights key aspects of human trafficking in adolescent and young adult patients. These discussions also reference the growing body of research on human trafficking, orient the reader to medico-legal aspects of reporting human trafficking in the adolescent and young adult populations, and feature useful questions, exercises, and resources to promote discussion among those medical professionals who interact with adolescent medicine and young adult patients. Written by physicians, legal advocates and lawyers, *Medical Perspectives on Human Trafficking in Adolescents* is the definitive guide for all clinicians who care for adolescent patients. It is also a useful resource for mental health professionals and social workers.

Human Trafficking in Ohio May 03 2020 Human trafficking has garnered a significant and growing amount of attention from the U.S. government since the 1990s, culminating in the passage of the federal Trafficking Victims Protection Act in 2000. There is also a growing body of research on human trafficking, but most of it has focused on trying to show that human trafficking is a problem. Wilson and Dalton explore the extent and characteristics of concrete cases of human trafficking in Columbus and Toledo, Ohio, as well as the awareness of and response to the problem by the justice systems and social service provider communities in the two cities. The authors summarize their content analysis of newspaper accounts as well as key respondent interviews that they conducted with criminal justice officials and social service providers in each site. These identified several cases of juvenile sex trafficking and forced prostitution in Toledo, as well as a smaller trafficking market centered on the forced labor of noncitizens in Columbus. Wilson and Dalton compare the two cities' considerably different responses to human trafficking, and conclude with suggestions on how to raise awareness about human trafficking and improve the responses of the criminal justice system, the juvenile justice system, and social services to the problem.
