*Recoveries and Reclamations* Oct 27 2019 This second volume of the series 'Advances in Art & Urban Futures' brings together contributions from artists, sociologists, architects and cultural theorists in addressing the recoveries and reclamations being made within urban and rural landscapes as a result of the fallout of redevelopment in the twentyfirst century. Recoveries and Reclamations addresses pertinent issues facing all those interested in a multidisciplinary approach to developing critical interventions in public space.

*Cage of Bone* Nov 20 2021 "Cage of Bone" is a collection of poetry and prose about survival, hope, loss and the persistent feeling of having no control. "Cage of Bone" will take readers into the darkest parts of what it means to be human and mostly what it means to be a woman, in a rough and raw voice, driven from the depths of the alleys mother warned you to stay away from. The game of life is hard to play, but if you win you better change, the thorns gripped tight but then gave way...But instead of becoming a beacon, I became the monster, I became a black hole. This is the first book in the "Black Hole" collection of short poetry books. Each book in the black hole series can be read as a standalone.

**Recreation as a Developmental Experience: Theory Practice Research** Dec 30 2019 It's not all "fun and games." A growing body of research suggests that recreation activities can be powerful development contexts when they are properly framed and intentionally designed. This volume highlights much of that research, and the articles that follow provide ample evidence that well-framed recreation activities and contexts can provide a range of positive developmental outcomes. Editors Lawrence R. Allen and Robert J. Barcelona draw on their own work in human and youth development and have assembled contributing authors who explore the important of meaningful recreation and leisure experiences in the lives of youth and the value of recreation from a developmental perspective. Chapters focus on the developmental potential of specific recreation contexts and settings and provide research and evidence-based strategies outlining the activities that best promote positive youth development. Finally, the volume demonstrates how recreation is being used to strengthen individual and community assets and its role as a contributor in addressing pressing social issues. This is the 130th volume of New Directions for Youth Development, the Jossey-Bass quarterly report series dedicated to bringing together everyone concerned with helping young people, including scholars, practitioners, and people from different disciplines and professions. The result is a unique resource presenting thoughtful, multi-faceted

approaches to helping our youth develop into responsible, stable, well-rounded citizens.

**Recruiting, Training, and Retention of Science and Technology Librarians** Sep 26 2019 Since the 1950s there has been a persistent shortage of sci-tech librarians, and as more librarians retire or change positions, the prospect looms that the profession will only depopulate

further. Tackling this difficult challenge, *Recruiting, Training, and Retention of Science and Technology Librarians* gathers together into one source the perspectives of top library administrators and managers as well as front-line librarians who present the latest research and practical strategies to find, train, and keep those valuable specialized professionals. This book explores in depth timely issues and presents creative perspectives and innovative solutions to this persistent problem in subject-specialized libraries. As the baby-boom generation of science and technology librarians begins to retire, training and keeping sci-tech librarians will become even more crucial. *Recruiting, Training, and Retention of Science and Technology Librarians* discusses the "replacement gap" problem in libraries, including who should be recruited, how they should be trained, and how to retain them once hired. Several authors address the field's long-standing specialist vs. generalist debate, bringing new data and experience-driven perspectives to this challenging issue. Topics in *Recruiting, Training, and Retention of Science and Technology Librarians* include: updating the cultural image of librarians to make the profession more appealing a comprehensive literature review how to cultivate candidates who are dedicated to service and love research and learning practical approaches to improve the visibility and attractiveness of science librarianship the skills and support needed to become a successful science librarian an innovative program to recruit undergraduates an in-depth survey of practicing science and technology librarians the challenges of science librarianship in Africa library and information science educators as recruiters for sci-tech librarians creative strategies to recruit and retain librarians adapting aspects of first-year student retention programs as a model for library retention programs how professional competencies can be used for recruitment, training, and retention and more *Recruiting, Training, and Retention of Science and Technology Librarians* is a timely, important resource for college and university administrators, and public, special, academic, and government librarians.

*Recovery Determinants of Distressed Banks* Jul 25 2019 Based on detailed regulatory intervention data among German banks during 1994-2008, we test if supervisory measures affect the likelihood and the timing of bank recovery. Severe regulatory measures increase both the likelihood of recovery and its duration while weak measures are insignificant. With the benefit of hindsight, we exclude banks that eventually exit the market due to restructuring mergers. Our results remain intact, thus providing no evidence of "bad" bank selection for intervention purposes on the side of regulators. More transparent publication requirements of public incorporation that indicate more exposure to market discipline are barely or not at all significant. Increasing earnings and cleaning credit portfolios are consistently of importance to increase recovery likelihood, whereas earnings growth accelerates the timing of recovery. Macroeconomic conditions also matter for bank recovery. Hence, concerted micro- and macro-prudential policies are key to facilitate distressed bank recovery.

**Kissing Architecture** Jun 03 2020 *Kissing Architecture* explores the mutual attraction between architecture and other forms of contemporary art. In this fresh, insightful, and beautifully illustrated book, renowned architectural critic and scholar Sylvia Lavin develops the concept of "kissing" to describe the growing intimacy between architecture and new types of art--particularly multimedia installations that take place in and on the surfaces of buildings--and to capture the sensual charge that is being designed and built into architectural surfaces and interior spaces today. Initiating readers into the guilty pleasures of architecture that abandons the narrow focus on function, Lavin looks at recent work by Pipilotti Rist, Doug Aitken, the firm Diller Scofidio + Renfro, and others who choose instead to embrace the viewer in powerful affects and visual and sensory atmospheres. *Kissing Architecture* is the first book in a cutting-edge new series of short, focused arguments written by leading critics, historians, theorists, and practitioners from the world of urban development and contemporary architecture and design. These books are intended to spark vigorous debate. They stake out the positions that will help shape the architecture and urbanism of tomorrow. Addressing one of the most spectacular and significant developments in the current cultural scene, *Kissing Architecture* is an entertainingly irreverent and disarmingly incisive book that offers an entirely new way of seeing--and

experiencing--architecture in the age after representation.

*Reconstructing Social Justice* Jul 05 2020 The rhetoric of social justice is commonplace but increasingly it means little more than a tag line or a punctuation point. *Reconstructing Social Justice* presents a new framework for social justice that will change the way people think about social justice and change the way people implement social justice. This book carves out an intellectual and practical space for social justice that is distinct from political, legal, and economic spheres. While emphasizing a distinct domain for social justice, the author then makes sense of its healing role in terms of the polity, economy, technology, and religion. Drawing from a rich supply of classroom experiences, her research on mosque controversies after September 11, 2001, and then the global examples of truth and reconciliation commissions, Frederking invites the reader to think about the relevance of social justice from the micro to the macro level. Rather than a set of policy outcomes or ideological positions, social justice is a process of social accountability that demands honest and transparent engagement. While disagreement is likely and controversy inevitable, this social justice process reaffirms our connectedness and moves us forward as a collective.

**Censored 2020** Aug 06 2020 In the midst of Trump's attacks on the media, comes this look at the rigorous, independent reporting of the year's most underreported news stories. While the country's president displays a brazen disregard for the First Amendment and routinely demonizes the press as "the enemy of the people," *Censored 2020* looks beyond Donald Trump's dizzying contempt for the truth to clarify the corporate media's complicity in misinforming the American public--while also providing a clear vision of a better future, based on rigorous, trustworthy independent reporting that presents a fuller picture of truth. With a discerning eye, *Censored 2020* focuses the public's attention on the most important but underreported news stories of 2018-2019. These stories expose the corporate news media's systemic blind spots while highlighting the crucial role played by independent journalists in providing the kind of news necessary for informed, engaged citizens. The book also examines this year's lowlights in "junk food news" and "news abuse"--further revealing how corporate news often functions as propaganda--as well as highlights of exemplary organizations that champion "Media Democracy in Action." Additional chapters address the importance of constructive journalism, the untold story of Kashmir, news coverage of LGBTQ issues in the Trump era, "fake news" as a Trojan horse for censorship, and online memes as a form of political communication.

**Grandad Mandela** Oct 20 2021 "...profoundly moving..." -Publishers Weekly Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions about their grandad - the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.

**Reconstructing the Psychological Subject** Aug 25 2019 This major book offers a comprehensive overview of key debates on subjectivity and the subject in psychological theory and practice. In addition to social construction's long engagement with social relations, this volume addresses questions of the body, technology, intersubjectivity, writing and investigative practices. The internationally renowned contributors explore the tensions and opposing viewpoints raised by these issues, and show how analyzing the psychological subject interrelates with reforming the practices of psychology. Drawing on perspectives that include feminism, dialogics, poststructuralism, hermeneutics, Lacanian psychoanalysis, and cultural or social studies of science, readers are guided through pivotal

**Reconstructing Hybridity** Mar 01 2020 This interdisciplinary collection of critical articles seeks to reassess the concept of hybridity and its relevance to post-colonial theory and literature. The challenging articles written by internationally acclaimed scholars discuss the usefulness of the term in relation to such questions as citizenship, whiteness studies and transnational identity politics. In addition to developing theories of hybridity, the articles in this volume deal with the role of hybridity in a variety of literary and cultural phenomena in geographical settings ranging from the Pacific to native North America. The collection pays particular attention to questions of hybridity, migrancy and diaspora.

**Reef Dance** Nov 28 2019 There is a certain poise that comes with understanding the ocean's moods, tapping a pulse borne of a distinct, untamed, unfathomable energy source. An equilibrium, located on a singular track between the sucking trough and the pitching crest. A sense of perfect balance on a rolling, temporary stage, not a single movement wasted. A spray-blinded late takeoff in roaring Santa Ana winds. A confidence, knowing your instincts won't let you down. Thirteen years ago J. Shepard's mother rose before dawn, packed a bag and walked out of his life forever. Since then, the rolling surf has been his only escape, a refuge from the daily stress of his job defending parents in the overburdened L.A. juvenile dependency court, and from the dark, unanswered questions of his past. When J. is assigned a high profile case, one in which a mother is accused of selling her child to the highest bidder, even a day in the surf won't let him escape. J. can't hide from the media attention that the case draws, and nor can he hide from the painful memories of his own desertion that the case congers. He realizes that if he does not confront the mystery of his own past he will always be stuck in equilibrium, unable to move against his emotional and physical tide. He will be stuck in the darkest spot in the ocean, the reef dance. J. simultaneously throws himself into the case and search for the reasons behind his own mother's disappearance. In order to succeed in both areas, however, he must rely on an old friend, Jackie Pace, a wayward surfing legend with a sordid past, that no one believes is reliable. But J. needs his friends help, and Jackie must rise to the challenge not just because he is J.'s friend but because he is much more intimately linked to the mystery than J. could ever know. Reef Dance will suck you into the surfer's pacific, pulling you deep within it's mystery, and the turmoil of one man's soul.

**Imagined Democracies** Jul 17 2021 This book proposes a revisionist approach to democratic politics. Yaron Ezrahi focuses on the creative unconscious collective imagination that generates ever-changing visions of legitimate power and authority, which compete for enactment and institutionalization in the political arena. If, in the past, political authority was grounded in fictions such as the divine right of kings, the laws of nature, historical determinism and scientism, today the space of democratic politics is filled with multiple alternative social imaginaries of the desirable political order. Exposure to electronic mass media has made contemporary democratic publics more aware that credible popular fictions have greater impact on shaping our political realities than do rational social choices or moral arguments. The pressing political question in contemporary democracy is, therefore, how to select and enact political fictions that promote peace and how to found the political order on checks and balances between alternative political imaginaries of freedom and justice.

**Dead of Eve** Jan 11 2021 "The writing, the action, the characters...I can't praise it enough. **Kinship Matters** Apr 25 2022 This book is the fifth in the Cambridge Socio-Legal Group series and it concerns the evolving notions and practices of kinship in contemporary Britain and the interrelationship of kinship, law and social policy. Assembling contributions from scholars in a range of disciplines, it examines social, legal, cultural and psychological questions related to kinship. Rising rates of divorce and of alternative modes of partnership have raised questions about the care and well-being of children, while increasing longevity and mobility, together with lower birth rates and changes in our economic

circumstances, have led to a reconsideration of duties and responsibilities towards the care of elderly people. In addition, globalisation trends and international flows of migrants and refugees have confronted us with alternative constructions of kinship and with the challenges of maintaining kinship ties transnationally. Finally, new developments in genetics research and the growing use of assisted reproductive technologies may raise questions about our notions of kinship and of kin rights and responsibilities. The book explores these changes from various perspectives and draws on theoretical and empirical data to describe practices of kinship in contemporary Britain.

**Jack McAfghan** Dec 22 2021 An expert communicator, Jack McAfghan writes the memoirs of his four-legged life as a mixed-breed Afghan Hound. From obedience and agility training to hospice work, Jack and his master learn their lessons side by side, inevitably applying what they have learned as their own lives unfold. It is a love story that can be used as an informal study guide for those who are in the process of training a dog, learning to love, or grieving over the loss of a friend. Jack presents with a wise, open and informed mind. He speaks firsthand about the psychological aspects of canine behavior as he opens the reader's mind to the possibilities that exist in life and after death. He reminds us that the way we think can change the course of our lives. This story will touch everyone who has ever loved. It matters not if they have four legs or two. Jack leads us to a higher love as he expands our tolerance and compassion for all of humanity. He extends himself to every creature of the earth, every human on the planet, every spirit in the universe and most of all, to the bona fide Master over all.

**Reconstructing Religious, Spiritual and Moral Education** Apr 01 2020 Religious Education is now identified as a shortage subject as a growing number of pupils in schools opt for it. The growing emphasis on children's moral and spiritual education, the DfEE's hunt for new teachers, OFSTED's calls for improvement and reinforced links with philosophy have pushed the subject into the spotlight. Based on research and partnership with schools this book examines and explains : \* the role of Religious Education in the curriculum \* the role of spirituality in children's lives \* better teaching practice, giving practical examples.

**The Book of L** May 27 2022 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for

developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

**Recording on a Budget** Jun 23 2019 Audio recordings are the calling card with which musicians share and promote their work so a knowledge

of recording techniques and technologies is essential to the 21st century musician. *Recording On a Budget* provides a comprehensive introduction to the recording arts from a budget-conscious perspective. Written by a professional musician and educator, this book is ideal for musicians, educators, music students, songwriters and hobbyists. A central theme of the book is that it is possible to make quality recordings with a modest selection of recording tools. Chapters cover the selection and use of all of the components of a project studio including microphones, mixer, computer, digital audio workstation software, and signal processors. Additional chapters provide a solid foundation in acoustics, audio recording, podcasting, mixing and mastering. The final chapter of the book features do-it-yourself projects that can be completed with a modest selection of tools. Most musicians have developed their ears to a high level so a special focus is placed on the development of recording technique through experimentation and the application of critical listening skills. The book is supported by an online resource of nearly 250 audio excerpts detailing all of the primary topics of the book. *Recording on a Budget* is ideal for: ? Musicians who are interested in recording a quality CD or demo ? Choir, orchestra, and band directors who want to record vocal or instrumental ensemble ? Student performers and composers who wish to record a performance or produce their own music ? Bands interested in recording live concerts or recording an album in a home studio ? Videographers interested in recording location sound, voice-overs or music ? Songwriters who wish to produce a quality demo ? Podcasters and ALL who want to make quality recordings without spending fortunes on equipment. Readers will learn ? to cut budget corners without sacrificing audio quality ? to choose the right microphone for the job (and where to place it) ? to assemble an equipment rack, mixing desk, and speakers stand ? to avoid common mistakes ? And to be creative and have fun with recording technology Visit the companion website at [www.oup.com/us/recordingonabudget](http://www.oup.com/us/recordingonabudget) for free selection of sample recordings!
