*Getting the message through: A Branch History of the U.S. Army Signal Corps* Sep 30 2022 Getting the Message Through, the companion volume to Rebecca Robbins Raines' Signal Corps, traces the evolution of the corps from the appointment of the first signal officer on the eve of the Civil War, through its stages of growth and change, to its service in Operation DESERT SHIELD/DESERT STORM. Raines highlights not only the increasingly specialized nature of warfare and the rise of sophisticated communications technology, but also such diverse missions as weather reporting and military aviation. Information dominance in the form of superior communications is considered to be sine qua non to modern warfare. As Raines ably shows, the Signal Corps--once considered by some Army officers to be of

**Morality in Cormac McCarthy's Fiction** Jun 03 2020 This book argues that McCarthy's works convey a profound moral vision, and use intertextuality, moral philosophy, and questions of genre to advance that vision. It focuses upon the ways in which McCarthy's fiction is in ceaseless conversation with literary and philosophical tradition, examining McCarthy's investment in influential thinkers from Marcus Aurelius to Hannah Arendt, and poets, playwrights, and novelists from Dante and Shakespeare to Fyodor Dostoevsky and Antonio Machado. The book shows how McCarthy's fiction grapples with abiding moral and metaphysical issues: the nature and problem of evil; the idea of God or the

transcendent; the credibility of heroism in the modern age; the question of moral choice and action; the possibility of faith, hope, love, and goodness; the meaning and limits of civilization; and the definition of what it is to be human. This study will appeal alike to readers, teachers, and scholars of Cormac McCarthy.

Martin Johnson Heade in Florida Oct 20 2021 Annotation.

"Roberta Favis tells the story of the last two decades of the life and artistic career of Martin Johnson Heade (1819-1904), when the peripatetic painter settled permanently in St. Augustine, Florida. Providing generous illustrations in both black and white" Annotation. Roberta Favis tells the story of the last two decades of the life and artistic career of Martin Johnson Heade (1819-1904), when the peripatetic painter settled permanently in St. Augustine, Florida. Providing generous illustrations in both black and white and color, she reassesses his career and importance by focusing on this late period of his work and looking more closely at his local context and the contemporary issues particular to the state that became his home. The history of Heade's career in Florida is, like many Florida stories, a complicated interplay between the forces of tourism and development and the rich natural beauty of the state. Favis closely examines Heade's relation to the development of tourism in St. Augustine and uses his writings to show his sometimes conflicting attitudes toward development and conservation. He artistically celebrated the beauties of the state being touted as "the new Eden," but he was an active participant in the projects of Henry Flagler to transform St. Augustine into a mecca for northern tourists, while his writings expressed concern that the pristine environment and its inhabitants were already threatened. In words and in pictures, Heade spoke of the vitality, beauty, and the fragility of Florida. Combining his biography, art, and writing, Favis captures and early chapter in the history of art in Florida
